PERSONAL PROJECTS

Uber Partners (03/2017 - 10/2017)

- Bought a used Chevrolet Spark with a friend, hired a driver as an independent contractor and started a simple operation where we leased the car to the driver and charged a monthly fee.

Drupp (02/2016 - 08/2016) 📈

- Born out of a Startup Weekend, we created Drupp, a web platform that digitized the process of behavioral evaluation for employees in large industrial companies. Received US\$5,000 in angel investment as funding from mentors to scale the platform for a pilot, which we achieved with large paper manufacturer "Familia Sancela".

VOLUNTEER EXPERIENCE

Democracy Earth (12/2017 - 03/2019) 📈

Technical writer. Designer of visual assets for the Democracy Academy. Researcher on decentralized technologies for Colombian governance.

Hult Prize at Unisabana (Team Leader)

(09/2018 - 11/2018) 📈

Leader of the training team, supporting the teams of students competing with their solutions to the following challenge: Create 10,000 jobs for 2025.
